

## SafeLand USA Train-the-Trainer Class

December 6<sup>th</sup> & 7<sup>th</sup> 2011

Canadian Valley Technology Center, El Reno, OK

6505 E. Hwy 66, El Reno, Oklahoma 73036

**ETC Members Only!**

**Space Limited to First 24 Enrolled**

This two-day class will be an informative training course for trainers. During the class, trainers will cover the PowerPoints that have been developed for the addition of the SafeLand USA training, the new trainer manual, new video opportunities and of course the new training material. This in-depth training will also detail the new record keeping requirements, how to make the new photo ID cards, temporary training cards, and use of the materials, etc.

At the completion of the training, all trainers will receive the materials they need to go out and train immediately, as long as the school or company the trainer is affiliated with is current on membership. The ETC's SafeLand USA training was officially accredited on May 25, 2010. Trainers need to have experience in at least 2 of the 3 following areas- HSE, Oil & Gas and/or training.

Because space is limited, it is recommended that trainers enroll as soon as possible to ensure a seat. Purchase orders will need to be made out to Energy Training Council. The cost for this two -day training is \$75/instructor and includes the PowerPoints, the background for the photo ID, the trainer manual and all other necessary items related to testing and recordkeeping.

If you have questions, please contact David Murphy @405-422-2272

Or Tara Porter @405-422-2311 [etc@cvtech.edu](mailto:etc@cvtech.edu).

- **Resumes & Enrollment Forms** must be emailed to [etc@cvtech.edu](mailto:etc@cvtech.edu) or faxed to David or Tara @405-422-2320
